PROUD DIY FANZINE. DIY OR DIE

ALWAYS REMEMBER YOU!

With good and bad things this year will go. Good bands and good concerts, nice people everything is still here, nothing has changed. This music ain't dead, this music live on thru simple people who have their passion in their blood. We can be whatever we want to be as long as we have a place to go called: music. Brings back memories and good times and will make you smile, we are all dust from the stars. Hard times are here to teach you lessons, not every day can be a good one but it is up to us to make it our best day. Keep it simple with everything you do from music, family and friends, never forget about you.

Even if is hard at the end of the day we all go on the same way home. Always stay true to yourself, always be nice and share a smile, always stay free, always remember YOU.

Since 2005 this zine is 100% DIY and is still a child play, comes from the heart for all the unheard over there. If I make somebody smile than this is perfect for me. We will try to stay up in 2015 as well, so thank you to everybody who supported us over the years and to all the nice and good people all over the world, to all the nice bands and labels: ALWAYS REMEMBER YOU!!! Dedicated to my biggest hero: my mother.

TNS RECORDS

promo cd

The Roughneck Riot presents their 3rd album thru mighty TNS. *Out Of Anger* is out there and kickin loud. A powerfull and nice mix from folk to punk made in UK. Anyway the band is already a name in UK and Europe underground and of course they have a lot to say, a true DIY ethic against politics, racism and hungry over money. With banjo, madolin, accordion, drums and guitars these guys will make your day. 14 tracks to dance, a real music from simple people for simple people.

The Domestics come from UK and of course their release from TNS will blow your stereo. Hardcore old school, punk and energy all under the name of: Routine and Ritual. With influences from Black Flag to Limp Wrist or from Extreme Noise Terror to Discharge or Poison Idea, Chaos UK these guys have them all. Full of hate and hope in the same time, with a strong political and social message, frustration and anger and sub cultural norms delivered in 14 tracks. Also with a featuring on *Fuck Your War* along Dean Jones (Extreme Noise Terror). Enjoy it loud!

exclusive interview with Enrico

1. *Ciao Enrico, it's been awhile since we spoke last time in 2007. How are you?*

Hi Mircea, really nice heard about you after long time....here everything is moving like 7 years ago...Los Fastidios, Kob Records, Virtus Verona....only I have closed my records shop (now I have only on line shop) and I changed something in my private life....

2. *First of all congrats for the new material,i did listen the preview, what is his story?*

Thanx mate, I'm really excited for this new album, Let's do it is the title....it born in the last 6 months with the new line up...i really love this album, a typical Los Fastidios album with something more than the past....I hope you will enjoy it

3. *Since 1991, you are the only constant member in LF, tell me about the "new" members...*

Not easy to be part of Los Fastidios, a lot of concerts everywhere in Europe, always ready to start for new shows....sometimes personal work or family cannot permit to do it....In the last 3 years we played not so much for these problems...at the end two old members dedided to step aside and make room to the two new members Mario (guitar) and Dave (drumset) who entered in the band last may with a big enthusiasm !!! Dave is an old friend, seeing it was the drummer of the old band of Alvise (our bass player) and he already played with us in the past few times when the old drummer had some problems with his back. Mario is a young guy, a great guitar player, who was playing together with Dave in a combat band called Hate the Nation.

4. *How things are moving with KOB?*

Not easy life at the moment for indipendent labels in Italy.... big problems with the distribution and more a lot of punk rock shops are closed now....so we cannot work like in the past....we released in the last year an album of Guacamaya (italian combat band) and the album of Cantiniero (italian ska band)....now the new Los Fastidios album and in few weeks the new Merdonalds (italian punk hc band)....

5. *Tell me what you do beside LF,KOB and Virtus Fans:)*

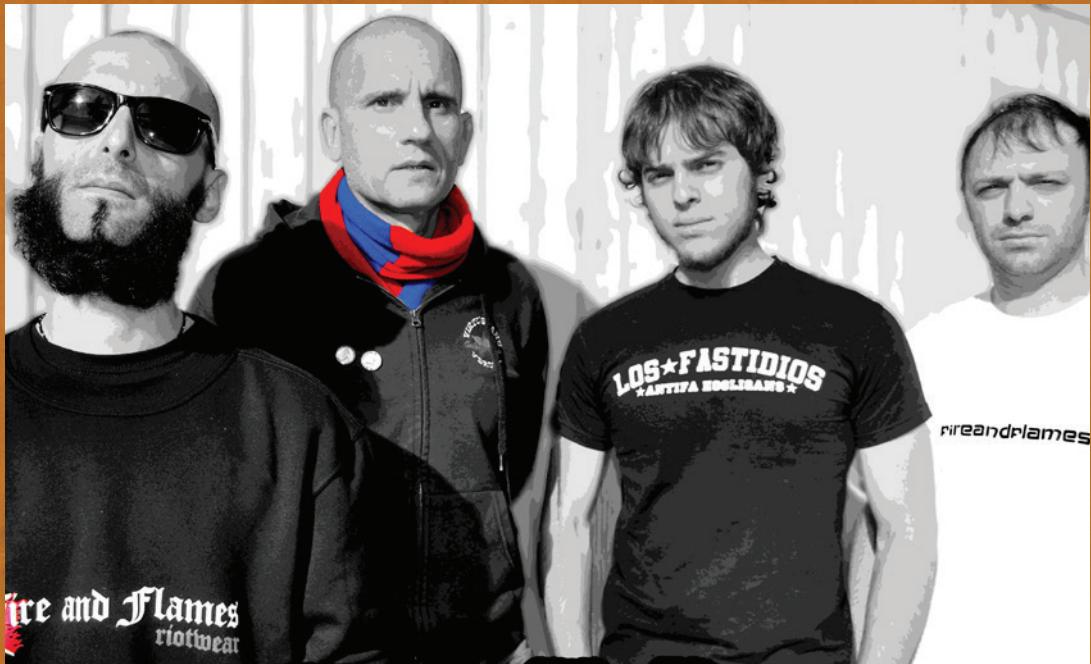

All this things really fill much my life.....I'm really lucky because I can do all of this together my girlfriend Elisa (she is involved in Kob, Virtus Fans and she is the tour manager of the band) and so I can have time to stay also together with her

6. *Last time in your top 10 when we did it few years back were: Cock Sparrer,86 Crew, Simaryp,Specials...still the same this time eh?*

Maybe you forget also The Housemartins (my favourite band of ever), The Smiths, the Oppressed.....yes nothing is changed

7. *I saw many good bands that don't exist anymore and many of the old ones coming back in force, music is still here for the good people,good labels are still here...how hard it is to keep the flame still burning?*

It's not easy....but I think when you have passion in your heart and you have something to say....everything is possible !!!!

The story of your life the story of all the lads, never deleted from your heart. Dozens of scarves hanging in the pub, dozens of stories from all over the world, dozens of lads crying for you, thousands of pints, missing for the crew .

8. I know your love for football, please make me a team of players from the bands that you listen to.

I'm not a trainer....just a supporter.....and I prefer to stay in the terraces than in the ground

9. I saw few concerts for LF, where you guys will play in the near future?

A big tour is waiting for us...in the next months we will tour all of Europe and in june for the first time we will fly to South America for a tour in Brazil, Chile, Argentina, Colombia.....

10. Few words for our 5 readers please:)

Take your passion in your heart....and may you become proud !!!

11. Thank you so much for your time Enrico and if you want to add something else please do so. Keep it up!

Thanx to you Mircea and to all the comrades (like you) everywhere in the world give their all to sustain and support the scene !!!! Let's do it.

Thanks to Enrico and LF. Mirceone vs. Enrico - December 2014

OLD FIRM CASUALS

this means war

The boys are back again with a new material This Means War. And yes Lars was busy with the other projects but finally the album is here. True oi and street punk anthems for fridays nights and for your beer with the boys and for true working class. If you think that Lars Frederiksen and The Bastards were good...then you must check this project. Ok, maybe football isn't so big in the US but Lars is a big fan of San Jose Earthquakes (from their major league) and the album bring an anthem for them: Never Say Die. 13 tracks for the fans of Argy Bargy, Bishops Green, Noise, Lion's Law and all the other good street punk/oi bands. A good job from Randale and Oi The Boat Records.

promo cd.

Honor Is All We Know comes in the right time for Rancid, after few years of taking care of the other projects (Tim Timebomb and Friends, Transplants for Tim and Old Firm Casuals for Lars) this album is a must for any Rancid fan. With their own mix of punk and ska and sometimes oi (thanks to Lars) the guys are ready to kick. First video is already up for Honor Is All We Know. The album follows more the old line of Rancid (And Out Come The Wolves, Life Won't Wait or Let's Go) than the 2003-Indestructible or the more pop one from 2009 Let The Dominoes Fall. I think a lot of their old fans will return and listen to this one. Evil's My Friend will take you to the roots of their early days with ska-punk thanks to Matt Freeman and Gravedigger will remind you of some street-punk thanks to Lars and Everybody's Sufferin will take you on a trip to reggae with some punk thanks to Tim. Well the album has a little bit of everything and even if a lot of critics put the blame on them for the last two albums for being more into pop, this one is a return to their original mix...just pay the respect for their more than 20 years into punk scene. Rancid all the way!

**FRIENDS
SINCE**
**SONS
OF**
LAKES PARK

I REMEMBER

**last day of school the first
you start to learn**

Their story begins in 2009 somewhere in a basement in a park called Lakes Park, after a mini CD and some line up changes the name transform from The Disgustibus to Sons Of Lakes Park. In 2014 they have finished their first 6 track EP: Last Day Of School, The First You Start To Learn. The sound is one energetic punk-rock with melodic hardcore something to remind you of NOFX, Milencolin, Lagwagoon, Rise Against and many more. Also for this EP they have a video for Sunrise Generation

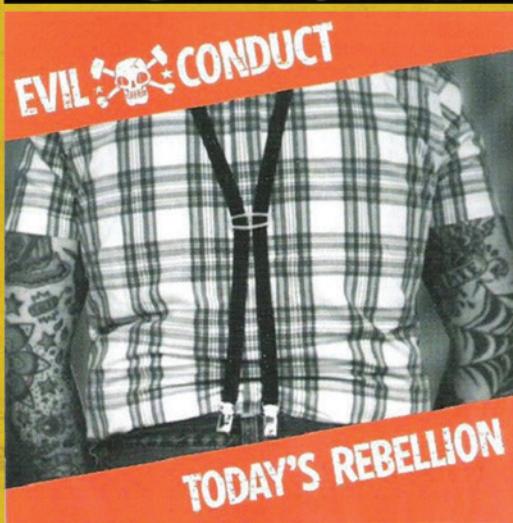

They have shared the stage with: Dufresne, Argetti, Atlas Losing Grip, Bigblast and Antillectual. If you will look to the cover you will remind of the 90's punk rock,skate punk generation.Energy for a boored generation,made in Italy. Listen to: Maybe, but not Today.

7 seconds

I think these guys will not need any introduction from me. They are already an icon for everybody who's into punk and hardcore. Leave A Light On is their new LP from 2014 on Rise Records, 14 tracks in their own style, that mix of punk and hardcore with speed and irony. 30 years of punk rock for these guys and Kevin Seconds still rocks after all this time. 30 years and still going wrong they say, could be true specially nowdays when everybody is so busy to stop and think to simple things. Short, fast and energetic in the old fashioned way of the band, one of theier best materials. If you are into H2O, Bouncing Souls, Bad Religion or any other real punk/hc band then this is for you. "We gotta spread this shit around/Make it more than just some slogan on a shirt"

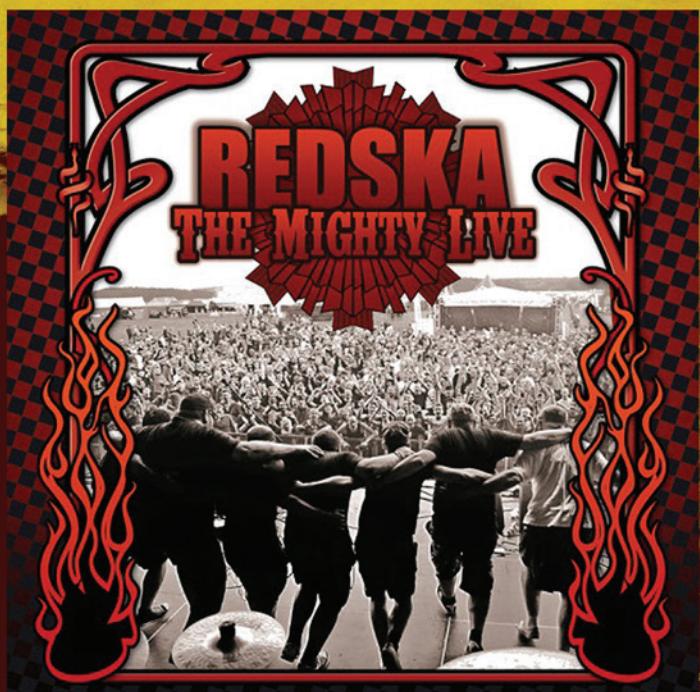

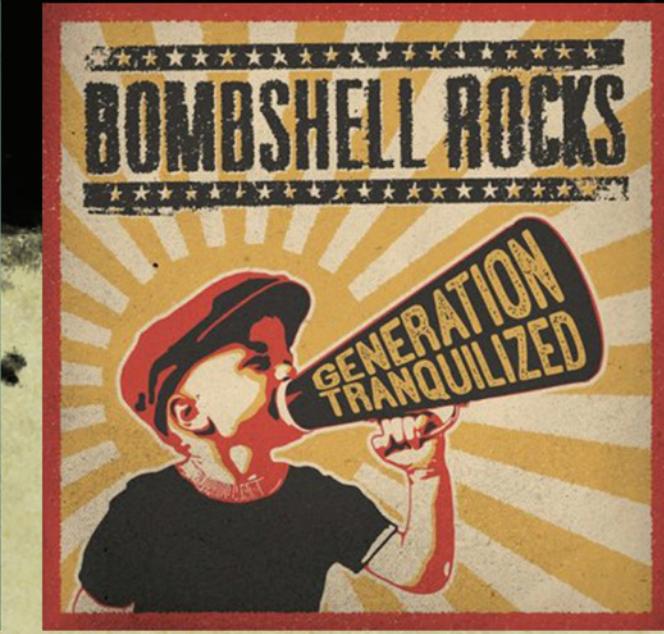

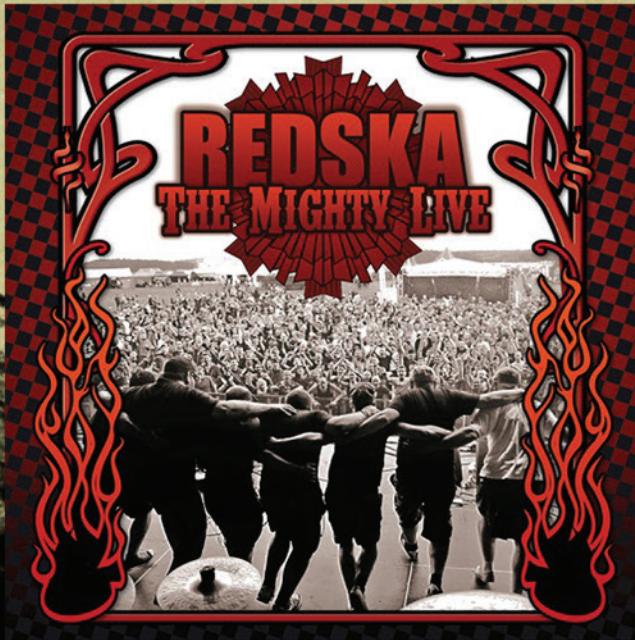

evil conduct

The boys are back once again with Today's Rebellion on the mighty Randale Records (some great releases for this label). If you have missed the split with Marching Orders and Evil Conduct-Yesterday's Rebellion no worries, you have the song on this LP. 10 great oi anthems 100% anti fashion and trend and of course 100% working class songs in the way Han and co. like it. Bring back memories and share a smile on tracks like: That Old Tattoo (also with a nice video) and The Best Years Of Your Life. Is something that comes from inside, it's a flame that the new generation must keep it burning in the mainstream era. "Yesterday's rebellion, the mainstream of today"

Old fashioned oi anthems for your soul, raise your beer and stay true to yourself.

Hoods are back again. The new album Gato Negro (Black Cat) comes after 2009 album Pit Beast (i Scream Records), now the band is signed with Artery Records and these 13 tracks are in a pure anger like the band knows how to release, short tracks full of energy in their hardcore old school with punk influences. If Cro Mags, Sick Of It All, Madball rings some bells than this album is for you. From Sacramento with hate. Our favorites: A Police Love Story, Down Town Vandals and Keep On Tuckin'. Respect!

NEW ALBUM
OUT NOW

If you didn't know already The Franceens are a 3 piece rock and roll band from York UK. They are known for their ferocious live shows, constant gigging, and their high-energy version of garage/rock and roll style music. They started in February 2013 and have been going strong ever since. As you are probably aware, here at TNS we like to support bands that also put some effort in to supporting their local scene. Without people putting the effort in the scene dies. Well The Franceens fight for DIY, underground music and believe in supporting your local live music scene, whilst also trying to discover and support new bands from further afield. Check out Behind The White Door in York.

REDUCERS SF

From (timeless) scathing critiques of gentrification in the Bay to drinks out with your friends at the pub, REDUCERS S.F. cover it all, and capture it all, in a real, believable, gritty and ultimately nostalgic way. The three highly-acclaimed LP's have and continue to speak for themselves, remastered, and reissued as part of this collection, they are sure to bring back wonderful memories for some, and undoubtedly help other people make new ones as well.

Originally released in 1999 on TKO RECORDS, "Backing The Longshot" set the bar, and was a core part of the soundtrack to many people's lives for years. Since they formed in 1995, REDUCERS S.F. were an absolute staple for thousands of San Francisco punks and skins. REDUCERS SF made a name for themselves, not only in the Bay, but across the world, touring and gigging alongside the likes of SWINGIN' UTTERS, ONE MAN ARMY, DROPKICK MURPHYS, WORKIN' STIFFS, COCK SPARRER, ANGELIC UPSTARTS, and a slew of other street punk bands.

In 2001, San Francisco's street survivors returned with "Crappy Clubs & Smelly Pubs", the follow-up to their 1999 debut album "Backing The Longshot"! After two hard years in the trenches, playing gigs with the likes of DROPKICK MURPHYS, SWINGIN' UTTERS, COCK SPARRER, PETER & TEST TUBE BABIES and the ANGELIC UPSTARTS, the boys returned to the studio to give everyone a taste of their authentic, Pub-Punk, Street Rock n' Roll sound. Produced by Steve Burgess, bassist and songwriter of COCK SPARRER, "Crappy Clubs & Smelly Pubs" shows the band reaching new heights. The past has proven that REDUCERS S.F. stand in a class of their own in the worldwide Street Punk scene.

Till hanging tough in the streets of San Francisco, and gearing up for live gigs, new recordings, and more, "Raise Your Hackles" is REDUCERS SF's "latest" album. Previously only available on CD from TKO RECORDS (in 2006), "Raise Your Hackles" was certainly a continued commentary about an ever-changing SF punk scene! The 13-tracks on this album, available here for the first time on VINYL, are still as poignant as ever. Get it as part of the collectable ESSENTIALS set, or just on its own.
